013001

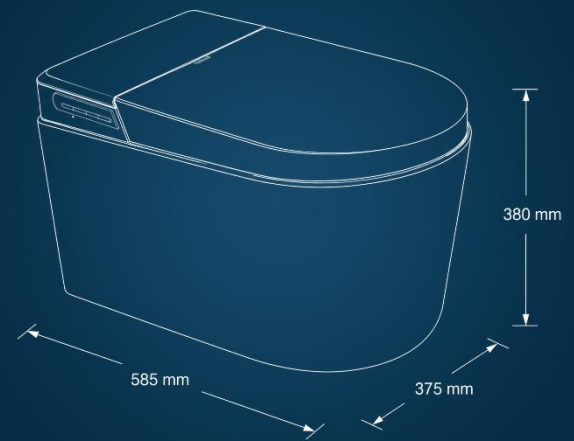

Wall Hung Smart Commode

DESCRIPTION

Model 013001 provides a suspended toilet arrangement combining a wall-hung form with the model's specified smart functions. The model is distinguished by Wall-Hung intelligent toilet and multi-function side key. Model 013001 is specified with Wall-Hung intelligent toilet and multi-function side key. Correct installation and material-compatible cleaning help protect its appearance and function. Professional installation is recommended, followed by routine cleaning with a soft cloth and a mild, non-abrasive cleaner.

KEY FEATURES

- Wireless remote control and multifunction side key.
- Self-cleaning spray wand with hip-cleaning function.
- Instant heating with adjustable water temperature.
- Adjustable air temperature for personalised comfort.
- Foot-touch flushing, LED display and night lighting.
- Energy- and water-saving operation with electrical safety protection.

Harrington

013002

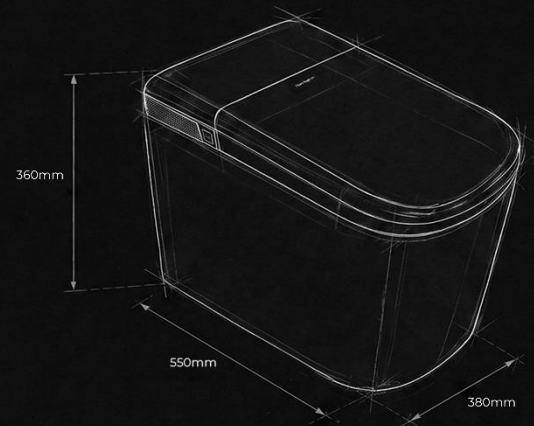

Harrington Smart Commode

DESCRIPTION

Designed for contemporary compact bathrooms, Harrington 013002 combines a clean wall-hung silhouette with intelligent washing and touch-minimised operation. Automatic lid opening, a built-in water tank and automatic flushing keep daily use effortless, while rear and feminine wash, a heated seat and adjustable warm-air drying support personalised comfort. The spray wand sterilises after use to help maintain hygiene, and the integrated fragrance function keeps the space feeling fresher. Wireless remote and side controls provide simple access to settings, while the LED display and night light make operation clear in both daytime and low-light conditions.

KEY FEATURES

- Automatic lid opening
- Built-in water tank
- Spray-wand sterilization
- Built-in fragrance function
- Automatic flushing
- Wireless remote control
- Heated seat with adjustable temperature
- Adjustable warm-air drying

013004

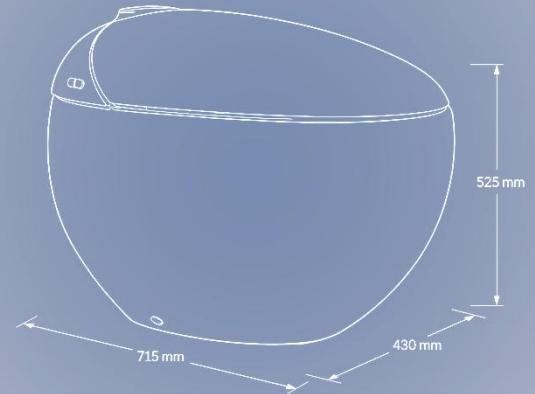

Harrington Smart Commode

DESCRIPTION

Created for interiors that demand a stronger architectural statement, Harrington 013004 pairs a sculptural black finish with a comprehensive smart-care system. Automatic lid opening, intelligent flushing and foot-touch operation reduce unnecessary hand contact, while massage, menstrual-care and child wash modes allow the experience to be adapted for different users. Spray-wand and plasma sterilisation strengthen the hygiene cycle, and a heated seat with adjustable warm-air drying improves everyday comfort. The built-in water tank, smart temperature control, remote operation and night lighting complete a confident, technology-led bathroom centrepiece.

KEY FEATURES

- Black finish
- Automatic lid opening
- Massage wash
- Menstrual-care wash
- Child wash mode
- Spray-wand and plasma sterilization
- Foot-touch flushing
- Smart temperature control

013009

Harrington Smart Commode

DESCRIPTION

Harrington 013009 is developed for users seeking advanced personal-care modes within a refined floor-mounted design. Massage, menstrual-care and child wash functions allow the cleaning experience to be tailored for different needs, while smart temperature control adjusts water, seat and drying comfort. Plasma sterilisation supports a more hygienic routine, and the removable, replaceable spray-wand nozzle makes maintenance easier. Automatic lid opening, smart flushing and warm-air drying reduce unnecessary contact and simplify each stage of use. A built-in water tank, remote operation, LED display and night light provide dependable everyday control.

KEY FEATURES

- Automatic lid opening
- Massage wash
- Menstrual-care wash
- Child wash mode
- Plasma sterilization
- Removable and replaceable spray-wand nozzle
- Smart temperature control
- Adjustable warm-air drying

SMART COMMODE

Harrington

Harrington

013010

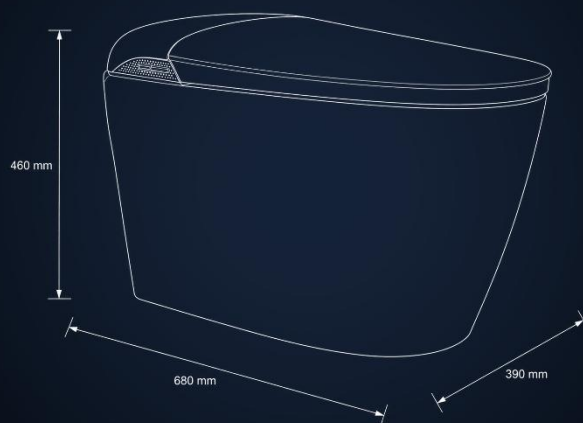

Harrington Smart Commode

DESCRIPTION

Technology-led and highly adjustable, Harrington 013010 places clear information and responsive control at the centre of the experience. The HD display and dual remote system provide direct access to nozzle position, water pressure, water temperature, seat temperature and air temperature settings. Foot-touch seat opening and automatic flushing when the cover closes help reduce hand contact, while the built-in water tank and fragrance function support a complete daily routine. Power-off memory preserves preferred settings, and power-off flushing maintains essential operation. Night lighting and layered voltage, leakage and overheat protection add confidence.

KEY FEATURES

- HD display
- Dual remote control
- Adjustable nozzle position and water pressure
- Foot-touch seat opening
- Automatic flush when the cover closes
- Power-off memory
- Built-in water tank
- Safe-voltage and leakage protection

Harrington

Harrington

013011

Harrington Smart Commode

DESCRIPTION

Harrington 013011 is designed around multi-layer hygiene and faster complete comfort. UV sterilisation, built-in water sterilisation and silver-ion sterilisation work together across key parts of the washing system, while massage and menstrual-care modes provide more personalised cleaning. High-speed warm-air drying helps shorten the final stage of use, and the heated seat maintains comfort from the moment the user sits down. Automatic lid opening, foot-touch flushing and remote operation reduce unnecessary contact. A built-in water tank, fragrance function, LED display and night light complete the refined floor-mounted system.

KEY FEATURES

- Automatic lid opening
- High-speed warm-air drying
- UV sterilization
- Built-in water sterilization
- Silver-ion sterilization
- Massage and menstrual-care wash
- Foot-touch flushing
- Heated seat comfort
